

EPA ID: NJSFN0204214 Site Name: HAMERSLEY MANUFACTURING COMPANY LF

State ID:

Alias Site Names:

City: WALLINGTON

County or Parish: BERGEN

State: NJ

Refer to Report Dated: 06/30/2000

Report Type: SITE INSPECTION 001

Report Developed by: DEP

**DECISION:**

☒ 1. Further Remedial Site Assessment under CERCLA (Superfund) is not required because:

☒ 1a. Site does not qualify for further remedial site assessment under CERCLA (No Further Remedial Action Planned - NFRAP)

☐ 1b. Site may qualify for action, but is deferred to:

☐ 2. Further Assessment Needed Under CERCLA:

2a. Priority: ☐ Higher ☐ Lower

2b. Other: (recommended action) NFRAP (No Further Remedial Action Planned)

**DISCUSSION/RATIONALE:**

The Hamersley Manufacturing Company Landfill is currently a vacant lot. The property was formally used by the Hamersley Manufacturing Company for underground fuel storage, sand mining activities, and unspecified waste disposal. In 1994, the New Jersey Department of Environmental Protection (NJDEP) issued an order to clean up the site. The underground storage tanks were removed and a lagoon (which had resulted from sand mining) was filled in. The NJDEP sampled the site from January 19, 1999 through February 3, 1999 to determine its CERCLA eligibility. As a result of this sampling event(s), it was determined that a No Further Remedial Action (NFRAP) was planned for this site.

There are no schools or daycare centers within 200 feet of the site. There is some minor sediment contamination associated with the site, however, there are no targets with this. The groundwater contamination is from upgradient sources and the top two feet of soil is replacement clean fill. The site is fenced in as to prevent access, and no target populations are being impacted by the site.

It is recommended that a No Further Remedial Action Plan (NFRAP) is placed on the Hamersley Manufacturing Company Landfill.
